

## **Rolls Out R2R Soybean Promotion**

Shur Grow Seeds, a product of Heritage Cooperative, can help you showcase Monsanto Roundup Ready 2 Yield technology as they roll out a NEW program for seed customers. At Shur Grow, we believe in Monsanto technology and feel confident in our R2R soybean varieties. The Shur Grow brand, over the years, was built and based on the **value and high yields** you have experienced in our Ohio research and marketing area. Our 2009 plot data confirms that the latest generation of R2R varieties has vastly improved, and we at Shur Grow Seeds feel this technology is something *you need to seriously consider*.

Details on our new program are listed below. Please note that *we have a limited number of bags left of these varieties*. Please contact your local seed salesman soon to take advantage of this great opportunity.

The Shur Grow R2R Roll Out Program only applies to Shur Grow R2R soybeans varieties for the 2010 season. Varieties included are:

<b>SG 2910R2R</b>	<b>SG 3010R2R</b>	<b>SG 3110R2R</b>
<b>SG 3210R2R</b>	<b>SG3310R2R</b>	<b>SG 3510R2R</b>

- The **Net Price** for 140,000 seed count unit is \$49.00.
- **Cash discount** of \$2.00 per unit paid by January 30<sup>th</sup>.
- **Cash discount** of \$1.00 per unit paid by February 26<sup>th</sup>.
- **All previous orders** will be retroactive to our new program.
- **All Shur Grow R2R soybeans** will carry a 100% replant policy.
- **All RoundUp Powermax gallons** used to treat like acres of Shur Grow R2R varieties will allow for a \$5 per gallon discount. This only pertains to treated R2R acres.

Because of cancellation fees imposed upon Heritage Cooperative, if we cancel treated orders with our other suppliers, Asgrow and Croplan, you will be charged a fee of \$10 per unit (which would include any RR1 and R2R soybeans).
